

Keep Denton Beautiful
Great American Cleanup
SAFETY INFORMATION

Wear closed toe shoes - sandals will not provide adequate protection against broken glass or other sharp objects.

Wear waterproof shoes if you are working in a drainage ditch.

Wear gloves - this will protect you from cuts, scratches, splinters and contact with objects that may be contaminated.

Stay out of the street and watch your step - Watch out for cars, snakes, poison ivy and fire ants.

Shade yourself - Wear a hat, long sleeves, or sunscreen. Wear sunglasses.

Do not pick up dead animals or hypodermic needles – Call Keep Denton Beautiful if you come across animal carcasses, needles, or any hazardous waste.

If you encounter an area that appears to be somebody's living space, do not approach or clean the area – Focus on other parts of your cleanup location and notify event personnel if you believe the location needs to be addressed by the Police.

Do not lift anything too heavy

If you find large items that have been illegally dumped, or hazardous waste of any kind, please do not attempt to move them. Notify event personnel when you return to the Civic Center so we can alert the proper channels (i.e., Community Improvement Services, Police Department, etc.)

Thank you for helping
keep Denton clean and beautiful!
